*Dimensions are nominal measurements only.

Installation Instruction

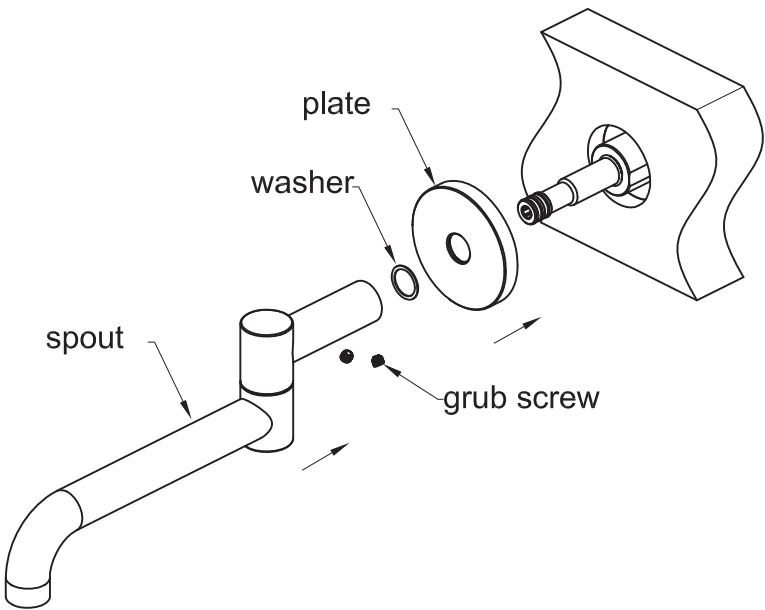

1. Cut off the G₂¹ outlet thread to flush with the finished wall surface.
Make sure the hole of ceramic tile is Ø30~Ø40mm.

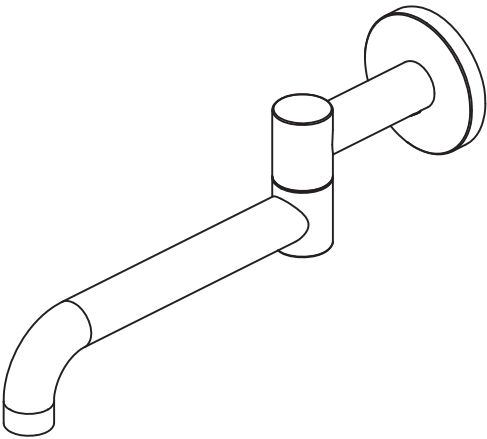

2. Screw the G₂¹ spout adapter on the outlet thread, and ensure there is rubber washer inside, as shown in the figure.

3. Slide plate, washer and spout onto adapter successively, then screw grub screw into spout with allen key firmly.

4. Test and check for leaks.
